## **Token: EXP24K**

Purpose of ICO: To fund the three projects listed above.

EXP24K is the Explorer 24K official token.

Your investment return will be reflected in the increase price value of each token that you hold.

EXP24K tokens allow customers, users, advertisers & subscribers to purchase all services within the platform, This coupling with the Buyback-Burn, thus creating an increase in demands and reducing the circulation creates value in scarcity, and it's a great way to reward our investors.

Exp24K Coins will be listed in major Centralized & Decentralized Exchange in Q1/Q2 2018. Listing details will be published at main homepage after the completion of ICO Crowdsale.

The delivered tokens can be traded or transferable immediately after the completion of ICO. However we strongly advise investor to hold on the tokens for at least 8 months to be able to see appreciation in the value or price of the tokens. Our marketing team intends to perform massive global post-ICO marketing to raise public awareness of the opportunity.

The initial price will approximately be set at USD \$0.0061 per token. It is our aim to achieve a long term baseline price of USD \$2.00 to USD \$2.20 per token. Hence investors will enjoy a handsome return and earn profits.

For more information regarding the tokens, please visit our website at [www.exp24k.com](http://www.exp24k.com)

## Why is Explorer 24K a good investment?
